

# ELITE PREMIUM MERCHANT PACKAGES

Leading edge technology made easy, just choose your preferred Elite Package! Everything you need to complement and grow your business is here at one affordable price.

**TERMINAL OPTION - XION 2.5** - Includes shipping, installation and complete training. This Future-Proof terminal has the most cutting edge technology available in security and it accepts next generation payments. It has an unbeatable high speed connection so you, your employees and your customers don't have to wait. Exclusively for Elite Payment Systems Customers!

It accepts NFC payments and EMV contact and contactless payments. *Effective April 1, 2013 All Merchant Service Providers will be required to support EMV chip transactions - get ahead of your competition!* Works on either IP or dial-up connections. Has an outstanding color display and large easy-to-read buttons with a backlit keyboard. It has its own....your own...Concierge Customer Service Button and it looks very impressive to customers. Xion thought of everything and designed it with the merchants needs in mind!

**MOBILE DEVICE PROCESSING OPTION** - Includes shipping, installation and complete training. Introducing the m+Terminal, our newest solution for mobile payments! Now you can process transactions from almost anywhere with your mobile device. It's as easy as downloading the app and plugging in the swiper. You can swipe cards, get authorizations, capture signatures, and email receipts all from your Smart Phone or Apple iPad. Demo Available

- 24/7 Support – The only Mobile App that has this benefit
- Can support multi accounts from one location
- Your customer can sign with their finger or a stylus
- Email or print receipt options
- Ability to store signatures
- Easy to void a transaction on the same ticket
- Encrypted Swiper– not transmitted in a mobile environment – Highly Secure!

**ALL-PURPOSE MOBILE DEVICE/VIRTUAL TERMINAL OPTION** – Includes Unlimited Sub-users, installation and complete training. Process credit card orders through our secure Virtual Terminal via your mobile device, laptop and desktop computer. Add a USB card reader and accept in-person transactions on your pc! The Virtual Terminal eliminates the need to purchase expensive software that quickly becomes outdated, resulting in more money spent in upgrades. All you need is a connection to the internet and you're in business! Demo Available
